### Our Unenviable Record.

It would seem from Dothan and Houston county's recent rec ord that we are trying to wrose the bouncide record from Birat inghain and Jefferson county. It the present homicide gait is kept up for long we will have to have a special court created in which to try the maiderers and turn them loose

What are we coming to? , lan't public opinion ever to be arous ed to the point where a man who slays his fellowman will meet deserved punishment? In this town to go on adding to its ree ord of having citizens guilty of dynamiting homes, and churches, setting fire to dwellings and en dangering the lives of their occupants, and nobody ever brought to justice and the proper punish-ment administered? Thoughtful entirens åre asking if it will over

Yes, it will end, but not until somebody is punished. We have got to put sentiment used, and make a horrible example of some man who willfully sinys his tellowman. The man who would set fire to a preacher's home in the dead of night endangering the lives of his family, must be brought to justice. The anarchbrought to justice The anarchiat who dynamites homes and churches must be caught and punished Human life must be made safer in Dothan and Hous ton county by a stricter enforcement of the law. And to have this law enforcement brought to the point where it will do read good we have got to use more of a certain commodity made from cotton namely, ROPE

The certainty of punishment is the greatest determent of come but here the un citamty of purishment has made crime a sertainty in stead of acting as a de-

terrent

# NOTICE

### To Our Friends and Customers

On and after the 15th day of December, 1914, our coal will-be sold strictly for CABE.

We take this step only after mature deliberation as we find business conditions of today such that we cannot maintain the Credit System which has been operated in the past. Under a strictly cash system the matter of bookkeeping will be largely eliminated, thus doing away with disputed accounts, and enabling us to main-

tain always those pleasant relations so much desired by us towards our customers.

This system has the endorsement of the largest and best business houses in the country, and we think you will agree with us that it is today the only satisfactory method leading to a success-

We thank each and every one of our customers for the patronage extended us in the past, and carnestly solicit a continuance of the same on this new basis.
